PROFESSIONAL EXPERIENCE

Full-Stack Developer
Deloitte Tunisia

📅 10/2022 – Present

Billing Support and Control System (BSCS) 📅 01/2024 – Present
- Developed and maintained various components of the Billing System for a telecom operator (Tunisie Telecom).
- Designing and implementing new UI components while optimizing and enhancing existing ones to improve user experience and interface efficiency.
- Implemented CI/CD pipelines using Jenkins.
- Collaborated in the design and development of new microservices.

Technologies: Angular, Spring Boot, Java 11, J2EE, PostgreSQL, OracleDB, Docker, Jenkins, Gitlab.

Vehicle Distribution System (VDS) 📅 10/2022 – 01/2024
- Contributed in the development of a BMW application for damage management during car transportation.
- Assisted in the migration of a monolithic architecture to a micro-services architecture.
- Enhanced UI for improved user experience and functionality.
- Gained experience in back-end and front-end development within a collaborative team environment.

Technologies: Angular, Spring Boot, Java 11, Node JS, PostgreSQL, Docker, Jenkins, AWS S3, Bitbucket.

End of Study Internship
Orange

📅 02/2022 – 08/2022

- Designed and developed a candidate sourcing website using NextJS, ReactJS, and NodeJS/Express, enhancing recruitment processes for enterprises.
- Implemented advanced features such as user authentication using JWT for secure access, technical quizzes, IQ tests, personality assessment tests, and a code editor embedded with coding challenges to evaluate technical abilities.
- Collaborated closely with UI/UX designers to create a modern and engaging interface, improving user interaction and retention rates.

Technologies: NextJS, ReactJS, NodeJS/Express, MongoDB.

Summer Internship
ESPRIT TECH - RDI

📅 07/2021 – 08/2021

- Developed a personalized E-Learning platform using Spring Boot, Angular, and MongoDB, tailored to user preferences and professional fields.
- Implemented features such as personalized course recommendations and progress tracking, enhancing user engagement and learning outcomes.

Technologies: Spring Boot, Angular, MongoDB.

SKILLS

Programming Languages:
JavaScript, Java, Python, TypeScript, HTML, CSS

Frameworks:
ReactJS, Angular, NodeJS, ExpressJS, Spring Boot

Databases:
MySQL, MongoDB, PostgreSQL, Oracle-DB

Technologies:
Docker, Jenkins, Git

CERTIFICATIONS

AWS Certified Cloud Practitioner
